

▶ LAND MANAGER

▶ A BETTER SOLUTION

The right tools for the job: If you have been frustrated in the past with expensive and complicated software, you will love Progeos' easy to use intuitive solutions.

Connect to Any Mapping Format: No matter what map format you used in the past or what you use now (ESRI, Intergraph, Bentley, AutoCAD, or even ArcSDE geo-databases), Progeos connects with feature-rich mapping and GIS functionality.

Spatial Search: Click on a map, search for map features within a given distance and show details in tabular form.

Attribute Search: Locate an item by searching on attributes, re-center the map on the selected item and zoom to the appropriate scale.

Create Custom Maps: Users can add custom annotation and symbolization to online data and print the map as a layered PDF file.

Export Abutter Lists: Search for specific properties within the municipality and quickly generate abutter lists that can be exported to mailing lists, PDF files, or Excel files.

Overlay Control: Show overlays and subdivisions, themes, overlay metadata and legends.

Thematic Mapping: Visualize and analyze data using bar charts, pie charts and dot density maps.

▶ MODULAR APPROACH

Use only what you need:

You only pay for the services you want to use, and they can be turned on when you are ready for them. Services include tools for:

- Land Management
- Property Management
- Service Request Management
- Code Enforcement
- Permit Management
- Road Management
- Zoning Request Management

All for an affordable fee – with no hidden costs

▶ FEATURES

Powerful, Easy to Use Tools:

Progeos Land Manager is powered by Cadcorp GeognoSIS®, world leading GIS software which is used to host some of the world's largest map and GIS data collections.

Progeos can read and use over 170 GIS, CAD, graphic and database formats without the need for translation.

Progeos Land Manager provides easy to use online mapping tools that allow users to browse through your municipality's online maps, search for specific locations and addresses, and create and print custom maps.

Additional features include the ability to read your online maps into GIS programs like ArcGIS or Google Earth.

▶ BENEFITS

Affordable Web Technology

Progeos' affordable fee with no hidden costs helps make your online municipal services a reality.

Flexible Technology

Progeos services are completely web-based, increasing access to your municipality's maps and data by creating a 24/7 town hall, and can drastically lower your IT costs.

Get up and running in days: Send Progeos your GIS data. Progeos hosts and backs up the data for your use via the Progeos web service. You can even link the service to your existing website.
