- Code Enforcement
- Permit Management
- Road Management
- Zoning Request Management

You can switch to full Progeos services with complete GIS capability at any time by activating Land Manager

**All for an affordable fee –
with no hidden costs**

▶ MODULAR APPROACH

▶ FEATURES

Powerful, Easy to Use Tools:

Progeos Lite can streamline municipal workflows and make a municipality more efficient, helping the municipality save money.

Progeos Lite provides a variety of online tools that don't require GIS capabilities for submitting maintenance requests to the appropriate department and personnel, managing property records including updating and editing parcel information, online permitting and tools for entering code violations and inspection reports.

Progeos Lite frees up resources and staff work load at city hall and allows local residents and businesses the convenience of online access.

The report tools within Progeos Lite allow department leaders and town managers to track the progress of municipal functions such as permit requests processes or the number of service requests that have been completed. The data collected helps to defend and justify budgets for the future and to identify opportunities to improve performance.

Users can activate full GIS based Progeos capability at any time, augmenting the services of Progeos Lite.

▶ BENEFITS

Affordable Web Technology

Progeos' affordable fee with no hidden costs helps make your online municipal services a reality.

Flexible Technology

Progeos services are completely web-based, increasing access to your municipality's maps and data by creating a 24/7 town hall, and can drastically lower your IT costs.
