

▶ PROPERTY MANAGER

The right tools for the job: If you have been frustrated in the past with expensive and complicated software, you will love Progeos' easy to use intuitive solutions.

Edit Parcel Data Online: No longer will your municipality need to rely on complicated databases to update parcel information. Easy to use online tools enable quick updates to all parcel data.

Query Property Information: Online tools allow users to search for specific properties by street, address, owner, parcel identification or tax identification. Once the user has selected a desired property, they can view an array of information about that property.

Export Online Data: Whether it is a property map, abutter list or a mailing address, users can export this information to a variety of formats, including layered PDFs and Excel spreadsheets.

Use from Home: Using Progeos' web-based municipal tools, residents and businesses can access valuable information 24/7.

Use only what you need: You only pay for the services you want to use, and they can be turned on when you are ready for them. Services include tools for:

- Land Management
- Property Management
- Service Request Management
- Code Enforcement
- Permit Management
- Road Management
- Zoning Request Management

All for an affordable fee – with no hidden costs

▶ Powerful, Easy to Use Tools:

Progeos Property Manager provides easy to use online tools that let a municipality manage its property records.

Couples with powerful online mapping tools, users can search and edit property records, including owner information, property characteristics and building information. Users can also query information about a specific property, create abutter lists and generate address and mailing lists.

Additional features include the ability to edit parcel records online, ensuring that the most up-to-date records are available.

With Progeos' online tools, property management has never been easier.

▶ Affordable Web Technology

Progeos' affordable fee with no hidden costs helps make your online municipal services a reality.

▶ Flexible Technology

Progeos services are completely web-based, increasing access to your municipality's maps and data by creating a 24/7 town hall, and can drastically lower your IT costs.

Get up and running in days: Send Progeos your GIS data. Progeos hosts and backs up the data for your use via the Progeos web service. You can even link the service to your existing website.
